## DECORATING KNOW-HOW

### How to make your space work better

**Rust-Oleum Doodle Wall** is a smooth, hard finish that creates a unique, writeable-erasable surface. Once dry, simply use dry wipe markers\* to draw or write messages and then erase. Application is easy and it has minimal odour making it safe to use indoors

#### PRODUCT FEATURES

- Easy dry erase surface
  - Possible on all sorts of things.
  - Perfect for home offices and children’s rooms.
  - One coat application.
  - Interior use only.
  - Two pack system.
- In the **home office** – create a work space that can accommodate your big ideas! Paint an entire wall and set to work on your plans.
  - On a **desk** – do away with notepads and post-its and create a whiteboard desk top.
  - On **doors**— add functionality to unexpected places and dead space like the inside of cupboards.
  - On a **bedside lamp** or table — make a spot to jot down those ‘spur-of-the-moment’ thoughts.
  - In the **playroom** — you will never have to worry about kids scribbling on the walls and surfaces again after turning a bedroom or playroom into a canvas
  - In the **kitchen** — create a space for your shopping list, it can be on a wall or a cupboard or even the fridge!

### Coming Soon: Glitter Ultra Shimmer

Create an instant wow factor on walls, furniture and home accessories with this ultra shimmer, high-density glitter paint. Simply apply the glitter glaze over any pre-painted surface to provide instant full coverage with megawatt sparkle. Perfect for making a striking design statement in your home. Adds ultra full coverage glitter finish to your projects. Available in 750ml & 250ml size.

Or for a more subtle look for walls, furniture and home accessories, try Glitter Subtle Shimmer additive. Once added to any emulsion, the tiny metallic glitter particles will catch the light and glimmer after the paint has dried, making it perfect for just a hint of glamour.

Both looks available in gold, silver and rose. Interior use only.

**BUILDING SUPPLIES UPDATE**

## New Grout Range

The Panabond Système Grout range has been extended!

Panabond Système Wall & Tile Grout is a cement-based grouting compound for internal and external use. It is available in 5kg and 10kg bags. To date it has been available in White, Ivory, Grey, Silver Grey, Beige, Black and Brown. We are now introducing **new colours**. The colours include Cream, Jasmine, Stone Grey and Titanium. We now also have a new system where we can actually colour match for individuals! (A minimum order of 20 x 5 kg bags required)

Panabond Système Grout is abrasion resistant, with added water-repellent properties. It contains an anti-microbial additive to inhibit mould growth. It can be used for joints from 2mm up to 12mm. It has been manufactured to the highest standards conforming to class CG2WA according to EN 13888. It is ideal for Porcelain, Ceramic & Vitrified tiles, Slate, Natural Stone, Marble, Glass and Mosaic tiles.

Contact for local sales representative for details.

## New products in the Floor Levelling Range

Introducing PANABOND LEVEL PRO R50 and PANABOND LEVEL PRO X80 Flexible Floor Levelling Compounds. They have been specially formulated to provide a rapid setting professional self-levelling and smoothing screed underlayment. These single-pack FLCs are packed with the perfect composite of specially blended cements, polymer, micro-fibres & aggregates to consistently deliver a level screed from 2mm up to 50mm for R50 and from 2mm to an amazing 80mm for X80 in one single application

These new formulations are made to provide the highest level of performance as you would expect from a Panabond product. R50 is certified CT C30 F7, while X80 is CT C25 F6. Both are fast setting, flexible and suitable for underfloor heating installations. Ask your Dycon sale representative for details
